FASHION
FOR ALL

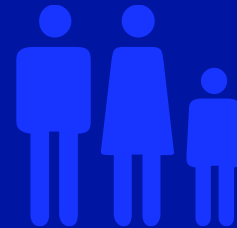

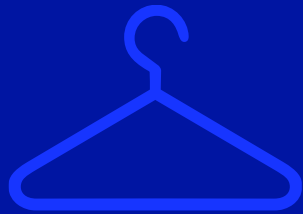

Workshop 3: Recycling Textile waste Introducing Recover™

recoverfiber.com
@recoverfiber

Recover™ is a leading material sciences company and global producer of low-impact, high-quality recycled cotton fiber and cotton fiber blends.

We transform textile waste into sustainable recycled fibers, closing the loop on fashion.

Our vision and mission

To achieve **circular fashion for all.**

By delivering **innovative, cost competitive,**
recycled fibers and **circular solutions at scale.**

75 Years of recycling history...

1914

Antonio Ferre opens a textile factory in his native Banyeres de Mariola, a small town in Alicante, Spain.

1947

A second generation of Ferres has a huge vision and introduces a game-changing innovation: **turn textile waste into yarn**. Ferre family has grown with the strong belief that recycling is the most innovative way to transform the fashion industry.

2006

Recover™ is born. Ferre gives a name to its recycled product line: **Recover™**, a name that defines a process and a **commitment to sustainability**.

2014

Recover's **unique recycling process** is officially launched with major global brands and retailers worldwide.

Today

A fourth generation of Ferres **preserves its unique expertise in fiber recycling** and bringing Circular Fashion for All.

The **new strategic partnership** with **STORY3 Capital and Goldman Sachs** allows Recover™ to **scale its impact** even further and **close the loop on fashion**.

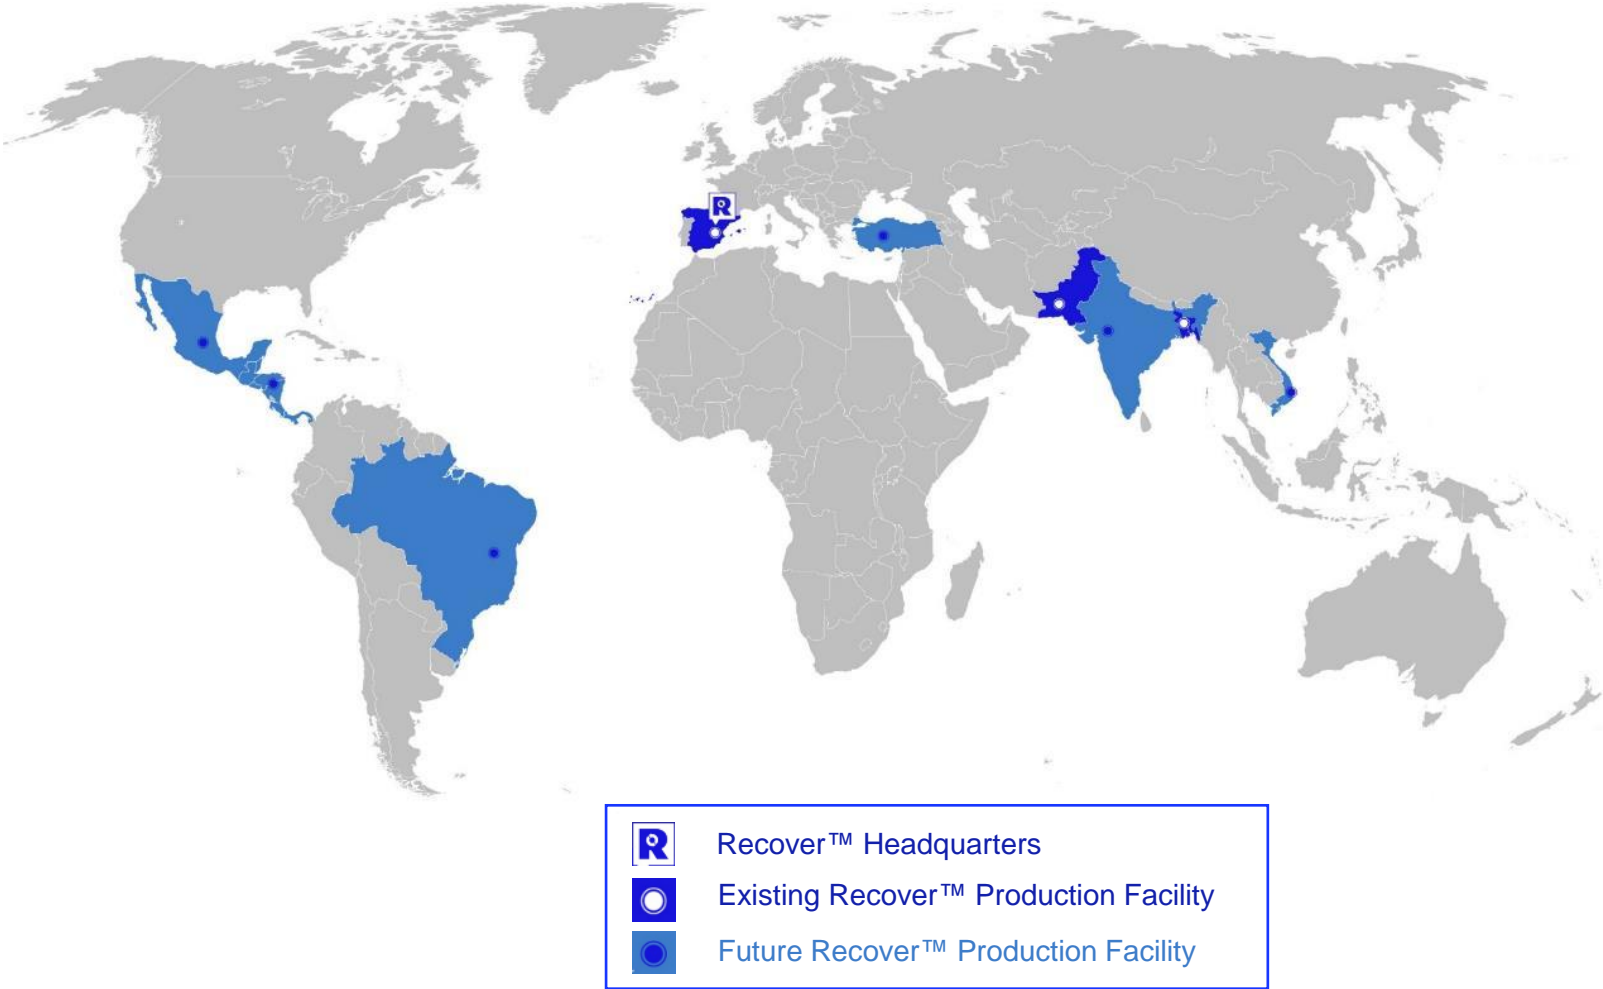

Recover™ allows
for a **closed-**
loop and
truly sustainable
fashion industry
